Maftei Mugurel

Frontend Developer 🚀 React, JavaScript, HTML, CSS 🌐 [Check my website.](#)

I am a Frontend Developer with 1 year experience working on personal projects with React, JavaScript, HTML and CSS.

I have a proactive attitude, being a problem-solver and having an impressive self-motivation to learn and evolve in this field. My perseverance is always present to help me go through complicated situations.

RECOMMENDATIONS

Gheorghe Madalina-Eleonora, Web Developer at Cognizant Softvision

Mugurel is a fast learner. Being motivated and confident, in a suitable environment he can reach exceptional abilities both when it comes to programming and soft skills. He demonstrated in his personal projects qualities both related to the design and the clean code he wrote. I believe that if he is given the chance and the necessary resources, he can create great things and has a bright future in IT.

Badea Narcisa-Elena, Frontend Developer at IBM

Mugurel is very ambitious and I could see him grow a lot in the last couple of months. He treated all of his projects seriously and even when things got challenging he did not give up but tried to solve the issues himself. He is not afraid to ask for help and also has a positive attitude when receiving feedback on his code. He still has a long way to go but his enthusiasm and eagerness to evolve are clear indicators to me that he will do great wherever he goes.
